

# EGYHUB

FOR PHARMACEUTICAL INDUSTRIES

## Unlimited CARE

[www.egyhubpharma.com](http://www.egyhubpharma.com)

# Company Overview

**EgyHub for Pharmaceutical Industries** is a pharmaceutical company in Egypt specializing in manufacturing human dietary supplements and veterinary medications, focusing on quality and market needs.

## Our Story

EgyHub for Pharmaceutical Industries started its journey in the pharmaceutical industry in 2020, securing manufacturing contracts with premier pharmaceutical factories in Egypt and obtaining necessary approvals from regulatory bodies. By the end of 2020, **EgyHub for Pharmaceutical Industries** decided to expand by establishing **South Africa Pharma company** to meet the market demands.

Early in 2021, market research was conducted to identify the demands for human and veterinary medications, guiding the selection and registration plan.

By 2022, regulatory approvals were secured from the National Food Safety Authority and medicines from **EGYPTIAN DRUG AUTHORITY**

In 2023, the way was paved for starting analysis and stability studies for veterinary products and the establishment of raw material stocks.

As of 2024, **EgyHub for Pharmaceutical Industries** proudly launches its products to meet market needs, ensuring a commitment to quality and innovation

In May 2025, a strategic milestone was added to **Egyhub for Pharmaceutical Industries'** journey, as the Industrial Development Authority allocated land to Egyhub to construct its own manufacturing facility to meet the growing market demand for pharmaceuticals and dietary supplements while ensuring superior quality and compliance. The new factory will also allow Egyhub to integrate advanced pharmaceutical technologies into its production processes, marking a new era of innovation and growth.

# Company Overview

## Vision

**EgyHub for Pharmaceutical Industries** aims to provide high-quality pharmaceutical products for both human and animal health, ensuring improved well-being and health outcomes.

## Mission

Our mission is to develop effective drugs and raw materials of the highest quality, prioritizing patient care and contributing to the health of individuals and animals alike.

## Values

- **Pharmaceutical Excellence: EgyHub for Pharmaceutical Industries** upholds the highest standards of pharmaceutical care and quality, ensuring that our products meet regulatory requirements.
- **Innovation: EgyHub for Pharmaceutical Industries** nurtures a culture of continuous improvement and innovation, seeking evolutionary solutions to address the health needs of our diverse customers.
- **Integrity: EgyHub for Pharmaceutical Industries** conducts business with transparency, honesty, and ethical practices, building trust with our contributors.
- **Caring for Health: EgyHub for Pharmaceutical Industries** cares for the health of both human and animal well-being. Our products guarantee healthier lifestyles and sustainable practices.
- **Environmental Responsibility: EgyHub for Pharmaceutical Industries** is dedicated to environmental sustainability. In our pursuit of global expansion, we incorporate eco-friendly practices in our manufacturing processes.

# Ivy Hub

Dried Ivy leaf extracts  
120 ml Syrup

## Therapeutic Benefits:

Dried Ivy Leaf Extracts Syrup is designed to address various health concerns:

- Relief coughs, bronchitis, and other respiratory symptoms.
- Facilitate mucus clearance from the respiratory tract, easing congestion and promoting easier breathing.
- Has anti-inflammatory effects that help to reduce respiratory discomfort.

## Direction of Use:

Children (3-6 years): 2.5 ml twice daily.  
Children (6-12 years): 5 ml twice daily.  
Adults (over 12 years): 5 ml three times daily.

## Mechanism of Action:

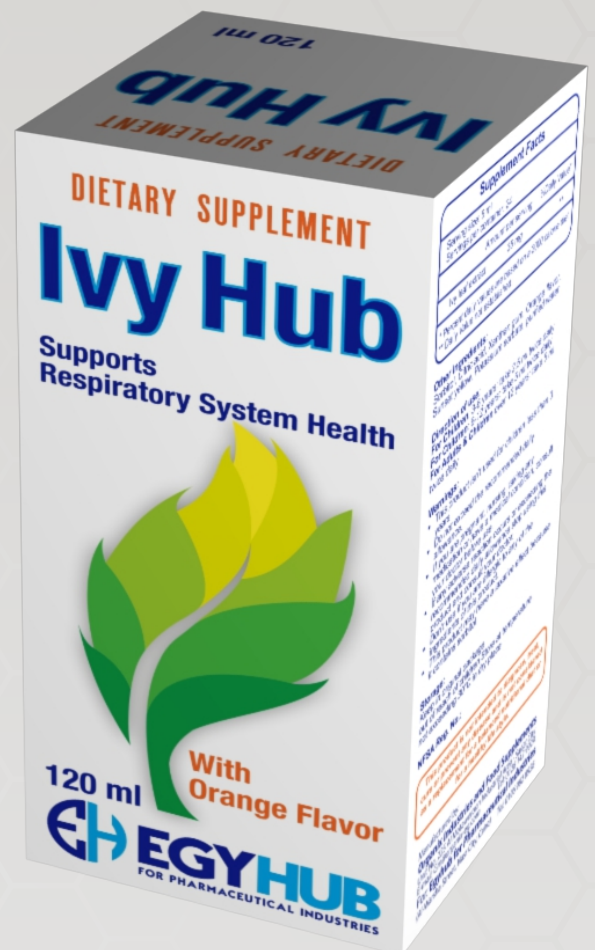

Dried Ivy leaf extracts have mucociliary clearance, bronchodilation, and anti-spasmodic properties. Thereby it enhances the removal of mucus from the airways, eases airflow, minimizes respiratory stress, calms respiratory muscles, and reduces cough frequency.

## Packaging:

Bottle of 120 ml with outer carton package.

## Unique Advantages:

- **Ivy Hub** is composed of natural premium ingredients for optimal effectiveness.
- Orange flavor masks the taste making it suitable for both adults and children.
- Ivy Hub does not induce drowsiness allowing for daytime use.
- Ivy Hub is suitable for people with diabetes.

[www.egyhubpharma.com](http://www.egyhubpharma.com)

# Omega Hub

**Fish Oil 1000mg  
30 Soft Gelatine Capsules**

## Therapeutic Benefits:

Omega-3 Fatty acids are vital for optimal health, as it has been linked to many health benefits, such as:

- Benefits in managing depression and anxiety.
- Improves mental disorders.
- Improves sleep.
- Promotes brain health during pregnancy and early life.
- Helps alleviate menstrual pain.
- Supports skin health.
- Aids in preventing age-related mental decline and Alzheimer's disease.
- Improves risk factors for heart disease.
- Reduces symptoms of metabolic syndrome.
- Reduces inflammation.
- Benefits for autoimmune diseases.
- Assists in preventing cancer.
- Reduces fat in your liver.
- Improves bone and joint health.
- Enhances eye health.

## Direction of Use:

The recommended dose is 2 Capsules daily.

## Mechanism of Action:

Dietary changes impact cell membrane composition, influencing cell function and signaling. Omega-3 fatty acids compete with omega-6s, reducing the synthesis of inflammatory mediators and providing an anti-inflammatory effect. They modulate adhesion proteins, cytokine production, and influence membrane-associated proteins, such as ion channels. Swiftly affecting cellular membranes,

omega-3s showcase broad-reaching influences on tissue functions, aligning with their general health-promoting properties.

## Packaging:

Carton box containing 3 blisters, each of 10 Soft Gelatine Capsules.

## Unique Advantages:

Omega Hub capsules are sourced from premium fish oil, ensuring the highest purity and potency. Omega Hub capsules are formulated for maximum bioavailability.

No Fishy Aftertaste is detected from Omega Hub capsules.

Omega Hub capsules are sourced from sustainable fisheries.

# Foli Hub

**Vitamin B12 - Folic Acid - Vitamin B6**  
**30 Sublingual Tablets**

## Therapeutic Benefits:

This combination of vitamins provides vitamin B-6, vitamin B-12, and folic acid to people who do not have enough of these vitamins for good health. It helps:

- Optimize energy metabolism, ensuring sustained vitality and reduced fatigue.
- Promote mental alertness and overall brain health.
- Maintain cardiovascular health by supporting healthy blood circulation.

## Direction of use:

Dissolve 1 sublingual tablet daily, or as directed by the healthcare provider.

## Mechanism of Action:

The combination of these vitamins supports cardiovascular health by assisting in the regulation of homocysteine levels. Thus decreases the risk of cardiovascular diseases, and these vitamins work together to keep it within a healthy range.

- Vitamin B6 (Pyridoxine): Involved in neurotransmitter synthesis, Vitamin B6 supports cognitive function and helps regulate homocysteine levels, promoting cardiovascular health.
- Vitamin B12 (Cobalamin): Essential for nerve function and red blood cell production, Vitamin B12 plays a key role in maintaining neurological health and preventing anemia.
- Folic Acid (Vitamin B9): Vital for DNA synthesis and repair, Folic Acid supports cell division and growth, supporting overall tissue health and functioning.

## Packaging:

Carton box containing 3 blisters, each of 10 tablets.

## Unique Advantages:

- Foli Hub's blend of Vitamin B12, Folic Acid, and Vitamin B6 creates a synergistic interaction for maximum health benefits.
- Foli Hub formulation prioritizes optimal bioavailability, allowing the body to absorb and utilize the essential B vitamins efficiently.
- The ease of use encourages consistent supplementation, promoting long-term health benefits.
- Foli Hub undergoes rigorous testing and quality assurance protocols to guarantee reliability and trustworthiness.
- Orange flavor ensures a pleasant and palatable taste.

# Chondro Hub

**Glucosamine - Chondroitin  
Collagen**  
**30 Film Coated Tablets**

## Therapeutic Benefits:

Chondro Hub is a premium formulation crafted to provide therapeutic benefits through its unique combination of Glucosamine, Chondroitin, and Collagen:

- Keep the Cartilage, Tendons, and Connective Tissue Healthy and Lubricated.
- Treat all types of Osteoarthritis and other types of painful and degenerative joint conditions.
- Adjuvant therapy during the treatment of Rheumatoid Arthritis.
- Improve the joint movements in the elderly and decrease the pain of musculoskeletal disorders.
- Preserve the joint structure and repair the traumatic damage in athletes and those undergoing regular physical exercises, intensive sports, or heavy weightlifting.
- Fortified with Collagen to Promote Healthy Hair, Skin, and Nails. In addition, it encourages Skin Hydration and Healthy Aging.

## Direction of use:

For Adults: 2 Capsules per day with your main meal, or as directed by your healthcare provider.

## Mechanism of Action:

The combination of natural substances, minerals, and vitamins used to strengthen joints and bones, Chondro Hub contains Chondroitin, a natural substance composed of sugar chains. It assists the body in maintaining synovial fluid and flexibility in the joints.

It also includes Glucosamine a sugar protein that is a natural substance found in bones, bone marrow, shellfish, and fungi, which helps the body build cartilage, and Collagen preserves the health of bones and cartilage.

## Packaging:

Carton box containing 3 blisters, each of 10 Film Coated Tablets.

## Unique Advantages:

- Chondro Hub is a triple-action formula that combines the benefits of Glucosamine, Chondroitin, and Collagen, offering comprehensive joint care.
- Chondro Hub ensures optimized bioavailability, enhancing the absorption of the components, and maximizing their therapeutic impact on joint health.
- The inclusion of Collagen assists overall well-being by promoting skin health and supporting the body's connective tissues.
- Chondro Hub undergoes testing and quality assurance protocols ensuring its effectiveness.
- Chondro Hub is manufactured with advanced technology to ensure the finest quality and purity.

# Egy-collagen

Collagen with  
Vitamin C  
Carton box containing  
20 Sachet

## Therapeutic Benefits:

- Essential for maintaining good health.
- Help maintain hydrated skin and relieve osteoarthritis pain.
- Increase bone density and help the body produce new bone.
- Improve skin hydration and elasticity in older people and lessen wrinkles.
- Increases the hair quantity, scalp coverage, and thickness.
- Fasten nail growth and reduce the broken and chipped nails.
- Reduced osteoarthritis pain by acting as a mild pain reliever and joint function enhancer.
- Increase muscle mass and strength.
- Improve heart health as it helps keep the shape of arteries and blood vessels.

## Direction of use:

For Adults: 1 Sachet per day, or as directed by your healthcare provider.

## Mechanism of Action:

Egy Collagen Sachets stimulate the body's natural collagen synthesis, fostering the regeneration of collagen fibers for improved skin, joint, and connective tissue health. Also provides essential amino acids that contribute to the structural support of joints, connective tissues, hair, and nails, promoting strength and flexibility.

## Packaging:

Carton box containing 20 Sachet.

## Unique Advantages:

- The powder formulation of Collagen Hub makes it easier to add to drinks and food than to swallow several capsules.
- The strawberry flavor makes it more palatable.
- Stevia sweetener makes it less in calories and more palatable and healthier to suit people with diabetes.
- The premium collagen used ensures purity and effectiveness in delivering optimal therapeutic benefits.
- The sachets are patient-friendly, providing a portable and travel-ready collagen solution.

[www.egyhubpharma.com](http://www.egyhubpharma.com)

# Scusap

Calcium, Vitamin D3  
Magnesium, Zinc  
120 ml Syrup

## Therapeutic Benefits:

Scusap is the perfect combination of Calcium, Magnesium, Vitamin D3, and Zinc to support the overall skeletal health of bones, teeth, and muscles:

- Promote strong and healthy bones.
- Play a crucial role in muscle function.
- Aid in muscle contraction and relaxation.
- Contribute to optimal physical performance.
- Boost Immunity and support body defense against infections and illness.

## Direction of use:

Adults (Men and Women): 2 teaspoonfuls twice daily.

Pregnancy and Breastfeeding: 2 teaspoonfuls twice daily.

Children (3-12 years): 2 teaspoonfuls daily.

## Mechanism of Action:

Scusap is the perfect combination of the daily needs of Calcium, Magnesium, Vitamin D3, and Zinc for children, adults, and pregnant women. Vitamin D3 enhances Calcium absorption ensuring its effectivity for both bones and teeth. Magnesium, an essential cofactor for muscle enzymes, participates in neuromuscular signals supporting proper muscle functions. Zinc prompts the production of immune cells, enhancing the body's ability to fight pathogens.

## Packaging:

Carton box containing 120 ml oral syrup bottle.

## Unique Advantages:

- Scusap is a balanced formula of Calcium, Vitamin D3, Magnesium, and Zinc ensuring maximum effectiveness.
- Scusap syrup is formulated for enhanced bioavailability.
- Orange flavor masks the taste making it palatable for children, adults, and pregnant women.
- Scu Sab suits people with diabetes.

[www.egyhubpharma.com](http://www.egyhubpharma.com)

# Servavest

**Multivitamins and Minerals**  
(Vitamin A, D3, E, C, B1, B2, B3, B6, B9, and B12), Biotin, Pantothenic acid, Iron, Zinc, L-Lysine, and Malt Extract.  
**30 ml Oral Drops**

## Therapeutic Benefits:

Servavest is a multivitamin and mineral that provides the body with its needs during the growth stage:

- Provide comprehensive support for the immune system, enhancing the body's ability to defend against infections.
- Contribute to bone health and support muscle function.
- Act as a strong antioxidant.
- Aid in the conversion of food into energy for vitality.
- Support vision, promoting healthy eyesight.
- Prevent iron deficiency anemia.
- Ensure mental health and cognitive function.

## Direction of use:

Children 1-3 years: 0.5 ml Twice daily

Children +4 years: 1 ml Twice daily

This formula could be given directly by dispensing, or mixed with infant formula, fruit juice, or other food.

## Mechanism of Action:

Servavest is composed of a wide range of vitamins and minerals each has its mechanism of action to keep a healthy body:

- Vitamin C enhances immune function, supporting the production of white blood cells for effective immune responses.
- D3 aids in the absorption of calcium, essential for bone mineralization and strength.
- Antioxidant vitamins (A, C, E) neutralize free radicals, preventing cellular damage and inflammation.
- B vitamins participate in key enzymatic reactions, facilitating the conversion of carbohydrates, proteins, and fats into energy.
- Iron is a crucial component of hemoglobin preventing deficiency and anemia.

## Packaging:

Carton box containing 30 ml oral drops bottle.

## Unique Advantages:

- The premium components used ensure purity and effectiveness.
- The combination of vitamins and minerals promotes overall health.
- Malt extract contributes additional nutrients and enhances the palatability of the drops.
- The liquid formulation and customizable dosage make it convenient for all ages.

[www.egyhubpharma.com](http://www.egyhubpharma.com)

# Rozmisap

Iron Pyrophosphate  
30 ml Oral Drop

## Therapeutic Benefits:

Rozmisap is used as an iron replacement to treat anemia.

## Direction of use:

Children 1-3 years: 0.5 ml

Children +4 years: 1 ml

This formula could be given directly by dispensing, or mixed with infant formula, fruit juice, or other food.

## Mechanism of Action:

The usage of iron pyrophosphate is based on the strong complex formation between these two species, as the capacity of pyrophosphate to trigger iron removal from transferrin, enhances iron transfer from transferrin to ferritin, and promotes iron exchange between transferrin molecules.

## Packaging:

Carton box containing 30 ml oral drops bottle.

## Unique Advantages:

- The berry flavor makes it palatable to all ages.
- The liquid formulation and customizable dosage make it convenient for all ages.
- Liquid forms facilitate faster absorption compared to solid forms.
- Iron Pyrophosphate may be associated with reduced gastrointestinal irritation compared to certain other forms of iron.

[www.egyhubpharma.com](http://www.egyhubpharma.com)

# Stallinesap

**L-Cystine - L-Methionine**  
**Stinging nettle leaves extract**  
**Zinc - Vitamin B2 - Vitamin B6**  
**Vitamin B5 - Vitamin B8**  
**30 Film Coated Tablets**

## Therapeutic Benefits:

The multiple micro-nutrients in this formulation enhance normal skin, hair, and nail functions:

- Provide the vital nutrients to help maintain healthy hair.
- Safeguards the diet by doubling up as a comprehensive multivitamin for all-round health.
- Maintain normal hair pigmentation.
- Enhance the normal skin function.
- Contributes to the maintenance of normal nails.

## Direction of use:

For Adults: 1 Tablet daily during meals, a few hours before or after other medications.

## Mechanism of Action:

Stalinosap works by slowing down the processes that damage cells, regulating intestinal fluid transport, facilitating the synthesis of proteins and DNA in cartilage, neutralizing free radicals by blocking the damage caused, and working as an antioxidant to protect cells.

## Packaging:

Carton box containing 3 blisters, each of 10 Film Coated Tablets.

## Unique Advantages:

- Stalinosap is an optimized formula of extra support.
- The tablets are coated which enhances palatability and reduces gastrointestinal irritation.
- Tablets have no odor which improves the overall patient experience.

[www.egyhubpharma.com](http://www.egyhubpharma.com)

# Siberrysab

Cranberry fruit extract  
Vitamin C as L-Ascorbic Acid  
30 Hard Gelatin Capsules

## Therapeutic Benefits:

Siberrysab capsule is used for the treatment, control, prevention, and improvement of the following diseases, conditions, and symptoms:

- Immune System Support.
- Collagen synthesis promotes skin elasticity and wound healing.
- Siberrysab acts as a potent antioxidant to protect cells from damage.
- Facilitate the absorption of iron to enhance red blood cell production
- Treat Scurvy.

## Direction of use:

1 Capsule daily.

## Mechanism of Action:

Siberrysab functions as a cofactor, enzyme complement, co-substrate, and a powerful anti-oxidant in various reactions and metabolic processes. It also stabilizes vitamin E and folic acid and enhances iron absorption. It neutralizes free radicals and toxins as well as attenuates inflammatory responses.

## Packaging:

Carton box containing 3 blisters, each of 10 Hard Gelatin Capsules.

## Unique Advantages:

- Siberrysab features a pure and potent formulation, ensuring maximum efficacy and bioavailability.
- Siberrysab undergoes intense testing, adhering to industry standards and ensuring the delivery of a reliable product.
- The hard gelatin capsules make it smooth and easy to swallow.
- The gelatin coating masks the taste improving patient compliance.

# MANUFACTURING FACILITIES

**EgyHub for Pharmaceutical Industries's** commitment to quality and excellence is reflected in our Manufacturing Facilities Department.

Presently, we collaborate with some of the best and most reputable factories in Egypt to ensure the production of our pharmaceuticals meets the highest standards, under the supervision of highly qualified Research and Development professionals.

This allows us to deliver premium dietary supplements and veterinary products to our customers, backed by certifications such as ISO 9001:2015 for Quality Management System, ISO 13485:2016 for Medical Devices Quality Management System, Good Manufacturing Practice (GMP) Certification, and other industry-specific certifications ensuring compliance with international standards and regulatory requirements.

With the upcoming factory construction, Egyhub is positioned to further enhance its manufacturing autonomy and scale.

[www.egyhubpharma.com](http://www.egyhubpharma.com)

# FUTURE PLANS

**EgyHub for Pharmaceutical Industries** has strategic and ambitious plans that assure our commitment to global impact and growth.

**Products Expansion by 2026:** EgyHub for Pharmaceutical Industries is dedicated to expanding our products to address a more comprehensive range of pharmaceutical solutions.

**Global Market Extension by 2026:** EgyHub for Pharmaceutical Industries plans to make a significant mark internationally. To export our pharmaceutical solutions to the global market.

**High-Standard Manufacturing Facility by 2028:** EgyHub for Pharmaceutical Industries plans to establish a high-standard manufacturing facility. This strategic initiative is proof of our commitment to pharmaceutical caring, innovation, quality control, and environmental responsibility.

**Launch of In-House Manufacturing Facility by 2027:** Following the land allocation by the Industrial Development Authority in May 2025, Egyhub is on track to complete and launch its own factory by 2027. This facility will enhance the company's production capacity, support innovation through advanced manufacturing technologies, and ensure consistent quality to meet growing demand.

[www.egyhubpharma.com](http://www.egyhubpharma.com)

# Quality Control Measures AND ASSURANCE PROCESS

**EgyHub for Pharmaceutical Industries** places a strong emphasis on ensuring the highest standards of quality across all aspects of its pharmaceutical and veterinary medication manufacturing processes.

The company has implemented a comprehensive Quality Control (QC) and Quality Assurance (QA) framework to guarantee the safety, efficacy, and consistency of its products.

[www.egyhubpharma.com](http://www.egyhubpharma.com)

# Quality Control Measures AND ASSURANCE PROCESS

The following highlights key elements of **EgyHub for Pharmaceutical Industries's** Quality Control and Assurance process:

- **EgyHub for Pharmaceutical Industries** operates modern and well-equipped manufacturing facilities, incorporating advanced technologies and adhering to industry best practices.
- **EgyHub for Pharmaceutical Industries** strictly adheres to international regulatory standards, including Good Manufacturing Practices (GMP), ensuring that its facilities and processes meet or exceed the requirements set forth by regulatory authorities.
- The company conducts precise assessments of raw materials used in the manufacturing of pharmaceuticals and veterinary medications. This includes thorough testing and validation to ensure the quality and purity of ingredients.
- **EgyHub for Pharmaceutical Industries** implements in-process quality checks throughout the manufacturing process to monitor critical parameters. This allows for real-time adjustments and ensures consistency in product quality.
- **EgyHub for Pharmaceutical Industries** employs advanced analytical techniques for testing and validating the identity, strength, purity, and stability of its products. This includes chromatography, spectroscopy, and other methods to assess product characteristics.
- Before products are released to the market, each batch undergoes a comprehensive review by the Quality Control team. Only batches meeting predefined specifications are released for distribution.
- Robust documentation and record-keeping systems are in place to track and trace every step of the manufacturing process. This ensures transparency, accountability, and facilitates audits and regulatory inspections.
- The company collaborates with reputable suppliers and implements stringent quality controls within its supply chain to guarantee the safety of raw materials and components.
- **EgyHub for Pharmaceutical Industries** actively engages in regulatory inspections and external audits to validate its adherence to international standards. This commitment reinforces confidence in the quality and safety of its products.

[www.egyhubpharma.com](http://www.egyhubpharma.com)

# Regulatory Approval

**EgyHub for Pharmaceutical Industries** takes pride in its commitment to regulatory excellence, ensuring that all pharmaceutical and veterinary medication products adhere to the highest standards set by regulatory authorities.

The recognition and approval of our manufacturing processes by reputable regulatory bodies underscores our dedication to compliance.

**EgyHub for Pharmaceutical Industries** and its subsidiary, South Africa Pharma, have received formal approval from the Egyptian Drug Authority (EDA) for their manufacturing processes. This endorsement reflects our commitment to meeting and exceeding the regulatory requirements set by the national regulatory authority.

**EgyHub for Pharmaceutical Industries** ensures the sticking to Good Manufacturing Practices (GMP), to ensure the quality, safety, and efficacy of our pharmaceutical and veterinary products.

Regulatory approvals serve as a testament to our ongoing commitment to quality assurance. **EgyHub for Pharmaceutical Industries** prioritizes implementing stringent quality control measures at every stage of the manufacturing process.

Product licenses were obtained through HBS for Pharmaceutical Industries, a leading company specialized in regulatory affairs and pharmacovigilance. Our successful collaboration with HBS continues as we work together to complete the registration of the manufacturing site with the Egyptian National Food Safety Authority (NFSA) and secure its inclusion in the (White List), positioning the facility for future expansion and international market access.

[www.egyhubpharma.com](http://www.egyhubpharma.com)

# Social Responsibility

**At EgyHub for Pharmaceutical Industries,** we are dedicated to making a positive impact on society through responsible business practices, which include:

- Ensuring access to our supplements and veterinary medications in all communities.
- Conducting health education for responsible product use in adults, children, and animals.
- Investing in eco-friendly practices, from sourcing to sustainable packaging.
- Actively engaging in local health events to strengthen community bonds.
- Supporting pediatric health and promoting responsible pet ownership.
- Fostering a workplace culture prioritizing employee well-being and development.
- Adhering to the highest standards of ethics, transparency, and accountability.
